finishing's first at Karon

Investing in the future

Karona believes strongly in offering you the finest quality finishes, without compromising our environment in the process. To this end, we have assembled the most advanced finishing system in the industry. The fully-computerized process assures you of furniture-finish quality and consistency throughout your job, no matter how many doors we build.

The UV finishing materials are water-based, and entirely environmentally-friendly. The application and curing processes release minimal volatile organic compounds (VOCs) into the air.

Your doors will give you a lifetime of warmth and beauty. The advanced coatings we employ provide you with an attractive, durable surface that will last as long as our doors.

Karona's finishing systems allow you to explore architectural design options. They meet or exceed AWI and WDMA specifications.

Karona's Advanced Factory Finishing System offers you standard colors such as those shown at the right.

We can also custom match any existing stain using our advanced color-analysis process. Just provide us with a sample and we'll do the rest.

Additional benefits to Karona's Advanced Factory Finishing System include:

- Superior clarity and grain enhancement
- Superior color consistency
- Automated flat-line system eliminates runs and other quality issues
- While using some of the most advanced finishes in the industry, you get greater value with the cost-efficiency of a fully automated process

For private homes or commercial installations Karona offers you the confidence and peace of mind of the finest products in the industry today. From design, to material selection, to engineering, production, and shipping, Karona takes the utmost pride in providing you with state-of-the-art solutions at every level.

We offer nearly 6,000 standard door designs across all our catalogs. We look forward to helping you express any style you desire. Inside and out.

Residential interior products are covered by a limited lifetime warranty. Commercial interior products are covered by a five-year limited warranty. Contact your distributor or visit our website at www.karonadoor.com for complete details.

Wood Characteristics: Wood is a natural material with character, color and grain patterns that vary, even when supplied from the same tree. Varnish or Stain can alter the original color of the veneer. For this reason, stain samples requested may show slight variance in color range. Finishes are for interior use only.
